Project Rubric: Evaluating the Changes in Surface Temperature Levels Across Countries

How will I know I have Succeeded? You will meet expectations on CS3 Create Case Study when you follow the criteria in the rubric below.

Formatting	● Submit each component listed in the rest of this rubric as advised below.
	   o Written Portion
	      ▪ Submit the written portion as a PDF file
	   o Data & Code
	      ▪ Submit code created for all portions in a GitHub repository.
	      ▪ Include any additional data that was used in GitHub if necessary

Written Portion	● Discuss your study and thought process by answering the questions below.
	
	   o What problems were presented in the study and their importance.
	
	   o Discuss your plan to meet the demands of the deliverable
	
	   o Discuss the results of your study and the significance of these results in a larger context.
	
	● Upload a pdf document to Github that lists your references in this project.

Code	● Upload all the code you have used in this project to the Github repository. o If you can, try to separate the code for cleaning data and producing the results.
